Dear Colleagues,

Football Gold Coast are happy to introduce Keith Garland as our coaching mentor. He will be tasked with providing guidance, education and on field training to assist your coaches at your clubs.

Keith will be working with all coaches from all age groups, ranging from U6 Miniroos all the way through to Senior Premier League. His main role will be focused around providing specific age group training for your coaches at your club.

Please note that Keith is not there to replace a coach for a session but there to educate a group of coaches while he takes a group of players at your club.

Below is a link that you will need to use when booking Keith and his mentor services.

Clubs are able to book Keith through the above link and there will be no restrictions on how many times you can book, however the even distribution of his services will be conducted throughout our clubs who request his mentorship.

The office will be in contact regarding any questions or queries you may have.

The mentorship will begin from next weekend and available throughout the week.
