Dear Colleagues,

With Keith Garland in place now as our Coaching Mentor, we would like to remind our clubs that the service is FREE to them to utilise.

We have had multiple clubs utilise the services already, however it has been noted that some clubs have opted to not utilise Keith's services in one area (i.e. Juniors) but utilised the offer in another area (i.e. Men's).

The program has been put in place to give support to all our coaches throughout a club. We have had some club coaches directly contact FGC about using Keith for a session, but we have prompted them to speak to their clubs first before organising a time.

We ask all our clubs to please consider the whole scope of your clubs and utilise the offer at hand. We understand that a lot of our clubs have people in place to partake in this role, however with the size and nature of our game they may not be able to address all their needs of their coaches.

FGC are here to help our clubs and not take away from people or their roles, so please do not hesitate to use Keith's services to help enhance your club and support your coaches.

Should you require more information please don't hesitate to contact the office.
