

MEMO: 19-21

TO: All Clubs
FROM: Andrew Parkes – Chairman FGC
DATE: 19th March 2021
SUBJECT: FQ's Recommendations Paper

Dear Colleagues,

By now you would have seen FQ's "Recommendations Paper" which outlines its plan for reform of football in the state.

I, as the Chairman of FGC received the said document late Monday afternoon and disseminated it to the entire board and our General Manager on Tuesday morning and have request each member to review the document in preparation for a special board meeting where the entire document will be discussed and analyzed.

Once the board has a better concept and understanding of the document, we will be convening a meeting with the CEO and Board of FQ to get further clarification on the document and their intentions moving forward.

After all this is completed we will call a meeting of all our clubs to outline our findings and our recommendations.

As our valued members I urge you all to examine the document and please provide me with any questions or concerns you may have an I will submit these to our Board as well as to FQ for answering.

In the meantime I wish to assure you that despite various rumors **no** decision or agreement has been made with FQ about this proposed reform nor will anything be done or committed to without the consultation and endorsement of our clubs.

If you haven't seen or received the Recommendations Paper please follow the below link to download it and as mentioned please send any questions or issues to gm@footballgc.com.au.

Regards

Andrew Parkes
