Dear Colleagues,

We have fixed the technical issues we were having earlier this morning. Team selections are now working on your team sheet.

Player photos can be added to players however please note that when you upload a photo you will need to log out and log back in for it to reset and show in the system. FGC recommend the club and/or coach log out after uploading images to the specific team to ensure that it has reset and saved the images. Once image is saved and you log back in you should be able to add to team sheet.

Thank you for your patience with this and any issues please contact the office
