The complete draw can be seen in the attached spreadsheet with every division on an individual page which can be seen by clicking on the tabs at the bottom of the open spreadsheet. Once you open them you will see some games are highlighted in yellow, that simply means they are games that are outstanding from already completed rounds.

Unfortunately, some divisions had more rounds to complete than others which has meant scheduling “double rounds” which means games will be played on Friday and Monday or Saturday and Sunday for the younger divisions.

To fit the season in, we have had to work with council to extend ROU’s on most ground. Luckily for us council was prepared to compromise but only allowed us a few extra weeks hence why we couldn’t go too far into October. You will also notice that we are playing through the school holidays but have kept the last weekend as a ‘catch-up’ weekend. This will give us a little flexibility if for whatever reason we lose a week once we start back.

I totally understand that the run home will be condensed and may put some unwanted extra pressure on parents and volunteers, if this is the case and clubs wish to change games then we will be accommodating under the conditions that both clubs agree to the change and that the change **MUST** be played within 3 days (either before or after) the original scheduled date.

Please understand that it is always our intention to do what is best for the game and to get people playing our wonderful game and I appreciated that the revised schedule may not suit everyone but with your cooperation and understanding during these times I am sure we will see the season out.

If you have any concerns, issues or comments please feel free to contact me directly or any staff member as we shall be only too happy to assist.

Please understand that this plan and rescheduled is totally dependent on the QLD Government allowing community sport to continue, should they extend or modify the restriction then we will be forced to once again review everything.

Thanking you for your understand in cooperation during these testing times and we urge all our members and families to please stay safe, follow the government protocols and anyone with [COVID-19 symptoms](#), no matter how mild, should [get tested](#) as soon as possible.
